Guidelines

Preamble

Spirit of inquiry, creativity and innovativeness are some of the natural endowments bestowed upon human beings, which are the keys to transformation of life. These factors, when manifested in the form of research, open new frontiers of knowledge, which is instrumental for all forms of development. Perhaps, this is the reason for which research is recognized as one of the core functions of the universities/institutions of higher learning and the universities have been rendering this responsibility with utmost diligence. India's noteworthy progress in the field of Information Technology, Energy and Space, etc., are the outcome of consistent endeavour of our intellectual resources. India, currently producing a solid core of knowledge workers in tertiary and scientific and technical education and its economy and industrial sector set for an unparalleled growth is poised to become the future global knowledge hub. However, the onus lies largely on our Higher Education system and particularly on our universities. But, of late, research has become a subservient component in the university functioning. Resource constraints, lack of commitment, proper incentive etc., are the impediments that are affecting the quality of research in our institutions of higher education. Other important factors for the deterioration of the quality of research are the absence of adequate training and other capacity building endeavour in our system, which have restricted students' creativity only to rote memory. On the contrary, their potential should be nurtured and harnessed for the benefit of the society. The current boom in Indian economy signaling an era of transformation should provide ample opportunity for success to innovative young brains to become trend setters and role models of a vibrant India.

With a view to inculcating research culture in our higher education institutions, the Research Division of Association of Indian Universities has taken a pioneering initiative to organize Student Research Conventions for the aspiring researchers throughout the country. These Conventions aim at identifying the young and rising talents who would be promoted through proper encouragement and incentives. Also an attempt shall be made to commercialize their research projects with industrial collaboration. The endeavour may accelerate scientific research and innovation and their application towards community development percolating to the grass root level. Anveshan: The Student Research Convention was applauded across the country for providing an innovative platform for students and generating a great zeal of enthusiasm among the young and emerging breed of researchers in the country. Nevertheless, the initiative is an attempt to inculcate and strengthen a culture of research in the universities and other institutions of Higher Learning.

Objectives

- To identify young talents with research aptitude and interest to take up research as career option.
- To promote the talent in research throughout the country.
- To nurture the talent through specialized training and education in some of the nationally and internationally reputed premier institutions of higher learning in the country.
- To augment financial and physical resources through collaboration with different sponsors for supporting education and training of the young researchers.
- To provide proper incentives to enhance the skill of potential students.
- To initiate an intensive research culture in a selected group of institutions.

Categories/Areas/Fields

The areas/fields in which Projects (**Individual and Group Projects***) are invited:

- Agriculture
- Basic Sciences
- Engineering & Technology
- Health Sciences and Allied Subjects, Pharmacy, Nutrition, etc.
- Social Sciences, Humanities, Commerce and Law (Objective and Result Oriented Projects)

* In case of a **Group project**, only three members [one principal investigator and two major contributors] are allowed to participate in the Zonal/ National Convention.

Nature of the Project

- Projects on the above mentioned areas must be original and must have undergone some exploration/ ground work in order to show its feasibility and impact.

Programme Structure

- The convention will be held in **three phases**.
 - i. In the **First Phase**, all universities in the country will be requested to organize an exhibition of research projects at **University level** in which students from **Affiliated/Constituent Colleges, Research Institutions and University Postgraduate Departments** will be invited to participate. The exhibited projects will be scrutinized by a team of experts of their respective areas and best five projects are selected for participation in the Second Phase.
 - ii. In the **Second Phase**, the exhibition will be held at **Zonal level** in five Zones viz East, West, North, South and Central where the winners of first phase participate. The Zonal distribution of Universities is displayed on AIU Website www.aiuweb.org. In each Zone one University is identified on the basis of certain criteria and the responsibility to conduct the Convention is assigned to it. From each zone, 15 best projects three in each category are scrutinized on the basis of laid down assessment criteria for giving entry to compete at the **National level**.
 - iii. In the **Third Phase**, the exhibition/competition will be held at **National level**. The Association of Indian Universities invites the successful projects, selected through the Zonal Competition, for National Level Competition. A total of **75 selected projects** will be displayed for assessment at the National Level out of which **15 projects** are finally selected for awards.
- The duration of the convention is the **three days each at Zonal and National Level**.

Number of Projects

- Each university is allowed to send a maximum number of five projects for the Zonal Level Student Research Convention preferably one each from each category. In case, the universities/ institutes do not offer courses/ programmes in all the categories/ areas/fields mentioned above, they can send total five projects from whichever category/area/field they have from amongst the above specified categories/ areas/fields. For Example, Agricultural Universities may send five projects from Agriculture Category itself.

- The selected projects duly countersigned by the Head of the Organization must reach the coordinator of the host university in each **ZONE** by the stipulated date every year which is intimated to the Universities and also displayed on AIU website www.aiuweb.org
- The projects are assessed by a panel of experts drawn from various disciplines on the basis of laid down criteria for assessment. The students whose projects are selected in the final stage at National Level Convention are given awards by AIU in terms of Trophies, Certificate and Gold Medals.

Awards & Incentives

Winners in the National Student Research Convention are awarded Cash Prizes along with Certificates and Mementos. The amount of Cash Prize* for first position holders is Rs 50,000/-, second position holder is Rs. 30,000/- and third position holder is Rs 20,000/-. The best research project across all the categories/areas/fields is awarded Prof S K Mukherjee Gold Medal instituted by AIU in the memory of its former President late Prof S K Mukherjee. Award of consolation prizes is subject to the decision of the panel there and then.

* This amount of cash prize is for 2015-16. It is liable to change in other years.

Method of Assessment

- The Projects can be presented in the form of live demonstrations /models / posters/ podium (oral) presentation in any aforementioned categories/areas/fields.
- Assessment of projects is done in three rounds each at Zonal and National Level. In the first round, the contestants have to display their projects in poster presentations (Size of Posters - 1m X 1m) before a panel of judges. If selected in the first round, the projects will be allowed for the second round where the contestants have to make a podium (oral) presentation before the panel of Judges. In the third Round, the presentation will be open for question-answer.
- Total time allowed for podium(oral) presentation and question-answers is 10 Minutes; Seven Minutes for presentation and Three Minutes for question-answers.

Criteria for Assessment of Projects

All the projects will be assessed on the basis of following criteria. Each criterion is assigned some weightage. The final selection of projects will be based on the cumulative weightage given on all criteria.

Criteria and Weightage

• Scientific Thoughts and Principles	20
• Creativity	20
• Thoroughness	10
• Skill	10
• Relevance	20
• Cost Effectiveness	10
• Teamwork	10

Apart from the above criteria, **Scope of Commercialization** of the projects will be considered as an **additional merit**. However, there will be no weightage point for this criterion. In case of the projects having scored equal cumulative weightage point, this criterion will be considered for making the final decision.

Eligibility for Participation

Entries of the research projects will be purely **INSTITUTIONAL** and only **BONAFIDE Fulltime** Students from Undergraduate to Doctoral Degree level, who are below 30 years of age, are eligible to take part in the Convention.

Procedure to Apply

The dates for conduct of the Convention are intimated to the universities and are displayed on AIU Website: www.aiuweb.org every year, as and when scheduled. Interested students need to apply for the first phase i.e University Level competition to their respective universities.
