**SWAMI RAMANAND TEERTH
MARATHWADA UNIVERSITY, NANDED - 431 606**

**(Structure and Syllabus of Four Years Multidisciplinary Degree
Program with Multiple Entry and Exit Option)**

UNDERGRADUATE PROGRAMME OF HUMANITIES

Major in DSC **Military Science**

B.A. First Year Syllabus

Under the Faculty of Humanities

Effective from Academic year 2026– 2027
(As per NEP-2020)

***Forward by the Dean,
Faculty of Humanities.....***

National Education Policy 2020 has been announced on 29.07.2020. NEP 2020 proposes a new and forward-looking vision for India's Higher Education System through quality universities and colleges. Its key is in the curriculum and its practical implementation.

The curriculum must be exciting, relevant, and regularly updated to align with the latest knowledge requirements and meet specified learning outcomes. High-quality pedagogy is necessary to impart the curricular material to students successfully; pedagogical practices determine the learning experiences provided to students, thus directly influencing learning outcomes. The assessment methods must be scientific, designed to improve learning continuously test the knowledge application.

The university's proper framing and development of syllabi will result in the upbringing and nourishment of multidisciplinary and holistic citizens. Emphasis is on outcome-based learning. Every course has well-defined objectives and outcomes. The assessment guidelines also provide clarity and precision to the vision behind prescribing the particular course content.

NEP foresees more vibrant, socially engaged, cooperative communities and a happier, cohesive, cultured, productive, innovative, progressive, and prosperous nation. The introduction of Research Methodology and ethics will widen the vision and broaden the perspectives of the learners.

Introducing Case Studies and Field Projects has created a unique opportunity for the higher education institute to bridge the gap between the academia, industry and the community NEP believes effective learning requires a comprehensive approach that involves an appropriate curriculum, engaging pedagogy, continuous formative assessment, and adequate student support.

We are sure that the Graduate centres of this university and its affiliated colleges will implement the course effectively and successfully, resulting in a healthy and more creative academic ambience.

Prof. Dr. Parag A. Khadke
Dean, Faculty of Humanities,
Swami Ramanand Teerth Marathwada
University, Nanded.

From Desk of Chairman, Board of Studies in Military Science & NCC

Preamble:

The Military science education includes defence and strategic studies in India in general are expanding in manifolds. Now, the challenge is to ensure its quality to the stakeholders along with the expansion. To meet this challenge, the issue of quality needs to be addressed, debated and taken forward in a systematic manner. Accreditation is the principal means of quality assurance in higher education and reflects the fact that in achieving recognition, the institution or program of study is committed and open to external review to meet certain minimum specified standards. The major emphasis of this accreditation process is to measure the outcomes of the program that is being accredited. Program outcomes are essentially a range of skills and knowledge that a student will have at the time of graduation from the program. Military science is the study of military processes, institutions, and behavior, along with the study of warfare, and the theory and application of organized coercive force. It is mainly focused on theory, method, and practice of producing military capability in a manner consistent with national defense policy. Military science serves to identify the strategic, political, economic, psychological, social, operational, technological, and tactical elements necessary to sustain relative advantage of military force; and to increase the likelihood and favorable outcomes of victory in peace or during a war. Military scientists include theorists, researchers, experimental scientists, applied scientists, designers, engineers, test technicians, and other military personnel.

Military personnel obtain weapons, equipment, and training to achieve specific strategic goals. Military science is also used to establish enemy capability as part of technical intelligence. In military history, military science had been used during the period of Industrial Revolution as a general term to refer to all matters of military theory and technology application as a single academic discipline, including that of the deployment and employment of troops in peacetime or in battle. In military education, military science is often the name of the department in the education institution that administers officer candidate education. However, this education usually focuses on the officer leadership training and basic information about employment of military theories, concepts, methods and systems, and graduates are not military scientists on completion of studies, but rather junior military officers.

An Military science program must therefore have a mission statement which is in conformity with program objectives and program outcomes that are expected of the educational process. The outcomes of a program must be measurable and must be assessed regularly through proper feedback for improvement of the programmer. There must be a quality assurance process in place within the Institute to make use of the feedback for improvement of the programme. The curriculum must be constantly refined and updated to ensure that the defined objectives and outcomes are achieved. Students must be encouraged to comment on the objectives and outcomes and the role played by the individual courses in achieving them. In line with this Faculty of Humanities of Swami Ramanand Teerth Marathwada University Nanded has taken a lead in implementing the system through its affiliated institutes. incorporating philosophy of outcome-based education in the process of curriculum development.

I, as Chairman, Board of Studies in Military science and NCC Swami Ramanand Teerth Marathwada University Nanded, happy to state here that, Program Educational Objectives were finalized in a meeting. The Program Educational Objectives finalized for undergraduate programme below;

- to create a human resource of organized , trained and motivational youth to provide leadership in all walks of life and be always available for the service of the nation.
- to provide a suitable environment to motivate the youth to take up a career in the Armed forces.
- to develop character, comradeship, discipline, leadership, secular outlook spirit of adventure and ideals of selfless service amongst the youth of the country.
- To introduce the internal and external security problems in India among the students and study the efforts made to solve those problems.

- To introduce the students about the situation at the international level and to create awareness among the students regarding international issues.

In addition to Program Educational Objectives, for each course of undergraduate program, objectives and expected outcomes from learner's point of view are also included in the curriculum to support the philosophy of outcome based education. I believe strongly that small step taken in right direction will definitely help in providing quality education to the stake holders.

Faculty of Humanities

General Guidelines for course structure:

- 1) The Major subject is the discipline or subject of the main focus and the degree will be awarded in that discipline/subject.
- 2) Credits and curriculum for optional subjects are same in the first year
- 3) In the first year Students should choose three different subjects as optional subject in same faculty).
- 4) From the Second year curriculum of Major and Minor subject is the different and student have to select major and minor from three optional subjects.
- 5) Generic /Open Elective is to be chosen compulsorily from faculty other than that of the Major. (Select from Basket)
- 6) Vocational and Skill Enhancement Courses (VSEC or VSC and SEC) are related to Major Course (DSC)
- 7) Ability Enhancement Courses (AEC) :
 - a) English language may be offered Sem. I for 2 Credits and sem. IV for 2 Cr. in AEC
 - b) Second languages may be offered Sem. II for 2 Credits and sem. III for 2 Cr. in MIL
- 8) Column No. 8 and 9 is common for all faculties.
- 9) Curriculum of VEC, COI, IKS and CCC will provide by university.

Distribution and Evaluation of Course Assessment

A. Continuous Assessment (CA) (40% of Maximum Marks):

Test I	Assignment	Attendance	Total (1+2+3)
1	2	3	4
10	06	04	20

This will form 40% of the Maximum Marks and will be carried out throughout the semester. It may be done by conducting **One Test and One Assignment and overall attendance marks**. Total of marks scored in these one tests, one assignment and overall attendance marks of a theory paper will make CA.

B. End Semester Assessment (60% of the Maximum Marks):

1. ESA Question paper will consists of 5 questions.
(Each of 10 Marks for 02credit pattern)
2. Question No. 1 will be compulsory and shall be based on entire syllabus.
3. There will be 4 sub questions (Short notes) in Question No. 1
4. Students are required to solve a total of 3 Questions.
5. Students need to solve **Any Two** of the remaining Four Question (Q.2 to Q.5) and shall be based on entire Syllabus.

Swami Ramanand Teerth Marathwada University, Nanded
Faculty of Humanities. Major in MILITARY SCIENCE
Under Graduate First Year Programme, Semester I
Paper Code: HMILCP1102, Title: Fundamentals of Drill, Map Reading and
Disaster Management Practical (*Optional*)

Curriculum Details

Course pre-requisite:

- Open for All

Course objectives:

- Practicing the students and informing them about the legendary drills
- Students motivate a good citizen of India.
- Students awareness of National Unity and Integration ,
- Students Introduce Map reading, difference of Maps, conventional signs of maps

Course outcomes:

- Students achieve National unity and Integration.
- Students understand Problems of India with neighbors country.
- Clearly understand the Practical use of Map Reading.
- Definitely Students motivate to join Indian Armed Forces.
