## ***From the Desk of the Dean:***

To meet the challenge of ensuring excellence in undergraduate programme Interdisciplinary education, the issue of quality needs to be addressed, debated and taken forward in a systematic manner. Accreditation is the principal means of quality assurance in higher education. The major emphasis of accreditation process is to measure the outcomes of the program that is being accredited. In line with this Faculty of Inter Disciplinary Studies of Swami Ramanand Teerth Marathwada University, Nanded has taken a lead in incorporating philosophy of outcome-based education in the process of curriculum development.

Faculty of Inter Disciplinary Studies , Swami Ramanand Teerth Marathwada University Nanded, in one of its meetings unanimously resolved that, each Board of Studies shall prepare some Program Educational Objectives (PEO's) and give freedom to affiliated Institutes to add few (PEO's) and course objectives and course outcomes to be clearly defined for each course, so that all faculty members in affiliated colleges understand the depth and approach of course to be taught, which will enhance learner's learning process. It was also resolved that, maximum senior faculty from colleges and experts from in dusty to be involved while revising the curriculum. We are happy to state that, each Board of studies has adhered to the resolutions passed by Faculty of Inter Disciplinary Studies, and developed curriculum accordingly. In addition to outcome-based education, semester-based credit and grading system is also introduced to ensure quality of education.

Semester based Credit and grading system enables a much-required shift in focus from teacher-centric to learner-centric education since the workload estimated is based on the investment of time in learning and not in teaching. It also focuses on continuous evaluation which wills enhance the quality of education. Swami Ramanand Teerth Marathwada University Nanded has taken a leaden implementing the system through its affiliated Institutes and Faculty of Technology has devised transparent credit assignment policy and adopted ten points scale to grade learner's performance. Credit assignment for courses is based on 15 weeks teaching learning process, however content of courses is to be taught in 12-13 weeks and remaining 3-2 weeks to be utilized for revision, guest lectures, coverage of content beyond syllabus etc.

Credit and grading based system will be implemented for First Year of Interdisciplinary from the academic year 2026-2027. Subsequently this system will be carried forward for Second Year Inter in the academic year 2027-2028, for Third Year and Final Year Interdisciplinary in the academic years 2028-2029 respectively.

## Inter Disciplinary Studies & NSS

**Subject:** Preamble for the Implementation of NSS as a General Elective Credit Course.

**1. Historical Context and Statutory Framework** The National Service Scheme (NSS) was launched on 24th September 1969, the birth centenary year of Mahatma Gandhi. It is a Central Sector Scheme of the Government of India, administered by the **Ministry of Youth Affairs & Sports**. Unlike military-focused organizations, the NSS is a voluntary association of young people in colleges and universities working toward a campus-community linkage. It is headed by the Program Adviser at the National Level and organized through Regional Directorates and State NSS Cells.

**2. The Aims and Objectives of NSS** The primary objective of the NSS is the development of the personality and character of students through voluntary community service. The specific aims include:

- **Social Consciousness:** To identify the needs and problems of the community and involve students in problem-solving.
- **Civic Responsibility:** To develop a sense of social and civic responsibility and a "Dignity of Labor."
- **Leadership and Teamwork:** To utilize their knowledge in finding practical solutions to individual and community problems.
- **National Integration:** To practice national integration and social harmony, guided by the motto: "NOT ME, BUT YOU."

**3. Transition to the Credit Course Model** In response to the **National Education Policy (NEP) 2020**, the NSS is being transformed from an extra-curricular activity into a **General Elective Credit Course (GECC)**. This transition is designed to provide academic weight age to social service, ensuring that students' contributions to nation-building are reflected in their academic transcripts. This move allows students the flexibility to choose "Service" as a formal subject, breaking the silos between traditional academics and social welfare.

**4. Curriculum Design and Training Methodology** The NSS Credit Course is structured around two main pillars:

- **Institutional Training:** Classroom-based sessions covering social consciousness, environmental conservation, health, and disaster management.
- **Field Work & Special Camps:** The application of knowledge through 120 hours of regular community service per year and a 7-day Special Camping Program in adopted villages or urban slums.

The methodology emphasizes "**Education through Service**," where the learner moves from theoretical understanding to practical social intervention, strengthening both the mind and the moral fiber of the student.

**5. Program Outcomes and Stakeholder Benefits** This curriculum supports the philosophy of **Outcome-Based Education (OBE)**. Upon completion, students will have developed tangible skills in mobilization, social administration, and crisis management. This initiative will benefit stakeholders by producing socially awakened graduates who are not only professionally competent but also ethically grounded. I believe this integration into the credit system is a vital step toward providing holistic, quality education to the youth of our Nation.
