Subject: Scheduled Update of School Content on the New University Website

Sir / Madam,

Following the launch of our new university website on August 15, 2025, it has been observed that much of the existing departmental data and content remains outdated. To ensure the website accurately reflects our current academic standing, we have scheduled a series of dedicated update sessions.

The Director and Website Coordinator for each school are required to attend their respective sessions fully prepared with updated content. This will allow for the immediate, real-time updating of your school's web pages.

Day1 23/03/2026	Time	School Name	At
